EXPERIENCE

Codenext IT Solution: MERN Stack Developer Intern   January 2025 - May 2025

- Collaborated with a team as a Full Stack Developer in building a professional E-commerce project.
- Negotiated with clients to brief technologies we will use to achieve the best output of their requirement.
- Took part in making core decisions to complete projects and satisfy clients.

Softriple Tech Ltd: Frontend Developer Intern   August 2023 - September 2023

- Built the frontend of a School Management System with a team.
- Learnt to complete tasks before the deadline and have fixes if there are any bugs.
- Learnt the process of completing a project from scratch to deployment.

SKILLS

- **Frontend:** Next JS | React JS | JavaScript | TypeScript | Redux | TanStack Query | Firebase | HTML | CSS | Tailwind CSS | Bootstrap | Material UI | Shadcn | Framer Motion | GSAP
- **Backend:** Node JS | Express JS | MongoDB | PostgreSQL | Mongoose | Stripe
- **Familiar:** Prisma | GraphQL | MySQL | NextAuth.js

PROJECTS

Hello Summer: Summer Camp (MERN Stack Project)   Live Link | Source Code

Technologies: React JS | Javascript | Tailwind CSS | MongoDB | Node JS | Express JS | Firebase | Axios | JWT

- The user roles are secure. Only specific role holder can see specific page of dashboard. Ex. Student can only see Selected Classes, Enrolled Classes and Payment History pages.
- Students can Enroll a class through a payment system. (We used stripe as payment gateway.)
- This site allows to toggle between dark and light theme.

Prime Toys: Toy Marketplace (MERN Stack Project)   Live Link | Source Code

Technologies: React JS | Javascript | Express JS | MongoDB | Tailwind CSS | Firebase | AOS

- Only logged-in users can add, remove and update their toys. And see details of a toy.
- Used pagination when showing toys, and users can search for toys by name.
- Added tabs on the home page. Tabs are containing toys in terms of subcategory.

Bong Bites: Recipe (MERN Stack Project)   Live Link | Source Code

Technologies: React JS | Javascript | Express JS | Tailwind CSS | Firebase

- Users can print the Blog page by clicking on the PRINT THIS PAGE button.
- A proper Authentication system was added to this project, users can authenticate with email and password, Google, and Github.
- Users can add recipes to their favorites by clicking on Add to Favorite button.
